POLICY-STATEMENT

Monochrome Verifications (Pty) Ltd core service and focus will be the provision of BEE Verification Services in all sectors of the economy with the specific objective of ensuring that BEE initiatives are measured in accordance with their substance and economic reality.

It is the company's intention to remain a market leader regarding quality of service and high client retention levels. Monochrome Verifications is the predominant rating service provider in relation to the suppliers of the existing client base.

Financial stability and cash flow capacity enables Monochrome Verifications to reach the target client base through the appropriate media and service channels.

Monochrome Verifications strives to be a leader in quality management by continuously improving the processes and streamlining the system to SANAS R47-03. This we intend achieving by a commitment to continuous improvement identified by regular internal audits, implementation of the management system, training of staff and remaining at the forefront of any development in the BEE industry. In turn this will provide our clients with confidence in our verifications and ultimately result in the retention of clients and high quality of service.
